

Katy Independent School District, TX selects SunGard's eSchoolPLUS Student Information System

November 1, 2011 — Bethlehem, PA

The Katy Independent School District (ISD) in Katy, Texas has selected SunGard K-12 Education's eSchoolPLUS as its student information system. eSchoolPLUS is a high-impact student information system which offers all educational stakeholders – teachers, school administrators, district staff and parents – with the ability to easily manage or access the student information they need when they need it to have a positive impact on student achievement.

"After a comprehensive Student Information System selection process, SunGard's eSchoolPLUS was the top selection for Katy ISD," commented Kerry Rampelli, Senior Project Manager for Katy ISD. "This will be an integral part to the continued success of our district and we are looking forward to a great partnership with SunGard K-12 Education."

Katy ISD is made up of 53 schools, including six four-year high schools, with an overall enrollment of more than 60,000 students.

eSchoolPLUS is designed to be intuitive to use, easily configurable to meet district specific needs and simple to deploy. In addition, SunGard K-12 Education offers eSchoolPLUS through the 'cloud' on a subscription basis providing school districts with a cost-effective alternative to implementing a new student information system.

About SunGard K-12 Education

SunGard K-12 Education provides software solutions that support over 8 million students or 1 out of 6 students nationwide by serving over 1,500 school districts throughout the United States.

Its PLUS 360™ solution is a single integrated suite of software products for student information management, assessment and curriculum management, special education management, and financial and human resource management. The products within the PLUS 360 solution, eSchoolPLUS, IEPPLUS, PerformancePLUS, BusinessPLUS and eFinancePLUS can be deployed to work together or implemented as powerful stand-alone systems.

In addition, SunGard K-12 Education products are currently deployed in four state-wide implementations.
