SunGard Partners with Moderne Informatik MINOS AG to Enhance Core Banking Implementation Services

Geneva, 3 March 2008 – SunGard (<http://www.sungard.com>) today announced that it has partnered with Swiss private banking software solution implementers Moderne Informatik MINOS AG (MINOS). MINOS will complement SunGard's in-house implementation teams in supporting core systems migration and replacement projects for SunGard's Ambit Apsys solution (<http://www.sungard.com/apsys>).

A specialist in core banking systems implementation and project support, MINOS supports wealth management institutions from system evaluation through to successful implementation and day-to-day software maintenance. The company has extensive experience in working with institutions across Switzerland.

Werner Kriech, branch manager at SunGard's Ambit Apsys Zurich office, commented, "This new partnership brings SunGard together with a group of highly specialized core banking project experts. This will ultimately help to drive the growth of our mid-tier private banking customer base, and will ensure that we are able to offer our Swiss customers greater levels of solution support."

Otto Brunner, senior partner at MINOS, said: "We are thrilled to be working with a global software vendor like SunGard and see a huge potential for SunGard's Ambit Apsys solution in this region. Today we have a team available with outstanding IT know-how that will deliver smooth implementation projects to SunGard's customers. We are greatly looking forward to helping Ambit Apsys customers to realize the benefits of this new partnership."

About Moderne Informatik MINOS AG

Founded in September 1992, MINOS employs a motivated team with the best possible qualifications in information technology. MINOS offers reliable, user-oriented and on-time implementation services of core banking solutions mainly for private banks in Switzerland and Liechtenstein. MINOS has appropriate banking know-how that enables customer-oriented solutions and high-quality services even in a complex banking IT environments.
