

MORE POWER, LESS CONSUMPTION AUTOMATION AND PROCESSING

MORE POWER, LESS CONSUMPTION **AUTOMATION AND PROCESSING**

Multiple systems with ad-hoc connections and complex workflows increase costs and hide risks. How do you outmaneuver failed or unconfirmed trades and operational errors while ensuring automation?

Front Arena's configurable, event-driven, exception-monitoring processing drives automation. One database, one data model across OTC and exchange-traded activities, enhances transparency while cutting operational risk.

Comprehensively handle all your trade processing from the same application – minimize exceptions while maximizing throughput from execution to settlement. A flexible, user-friendly and extensible engine enables you to radically simplify your workflows and processes.

Front Arena allows you to engineer more competitive processes.

A person with dark hair, wearing a black and white vertically striped long-sleeved shirt, is seen from the side, leaning forward and looking at a whiteboard. The whiteboard is covered with several framed charts and graphs, including line graphs and bar charts. The scene is dimly lit, suggesting an office or meeting room environment. The overall tone is professional and focused.

MINIMIZE EXCEPTIONS WHILE

SPENT ON RECONCILIATION.

RULES-DRIVEN WORKFLOW

Data powers applications around the business: you define the rules for when more control and scrutiny is needed.

END TO END

Think beyond the back office: automation now begins with an order and goes right through to settlement and confirmation.

ONE DATA MODEL

The same data and the same screens wherever you are: cut down on time and money spent on reconciliation.

REAL-TIME PROCESSING

Front Arena can handle the efficient continuous processing of volume business, helping drive throughput.

ENGINEERED FOR HIGH VOLUME

Get all the bandwidth you need to handle parallel inputs of multiple message types: eliminate queuing and slow batch processing.

FULL CONFIRMATIONS AND MESSAGING SUPPORT

Keep pace with innovation – industry standard templates for every product drive efficient through-put. Become more competitive – message standards improve connections with counterparties.

MANAGE THE ENTIRE TRADE AND SETTLEMENT LIFECYCLE ON A FLEXIBLE, USER-FRIENDLY AND EXTENSIBLE PLATFORM.

ACCOUNTING FOR YOUR TRADING BUSINESS

Enjoy greater transparency for all cash and P&L movements. Dictate treatments to your organizations standards. Data mine the results through an ergonomic display of balances and summary accounts. Explore all the way back to the original trades if necessary.

WORK SMARTER

Manage the entire trade and settlement lifecycle on a flexible, user-friendly and extensible platform. Bringing together OTC and exchange-traded activities with integrated exposure monitoring radically simplifies workflows and processes.

MANAGE RISK BETTER

Inefficient processes and failed trades waste time, money and dissatisfy clients and counterparties. They also allow risks to creep in. More transparency and better throughput, increases the control of positions and client business, cutting risk and improving your real-time view.

CONSOLIDATE FOR STRENGTH

Multiple systems create opacity when regulators are demanding transparency. Front Arena lets you handle trade-lifecycle management, settlement, documentation and accounting on a single platform.

The competitive landscape is presenting serious opportunity – for those with the vision and speed to take advantage. Front Arena is the cost-effective and flexible technology platform that lets you control multiple asset classes and business lines.

A growing number of banking clients, in all regions and tiers, now rely on Front Arena across their businesses. Others choose a single implementation to do a specific job, meshing seamlessly with existing systems.

All implementations follow our unique ‘validation of scope’ methodology, mapping Front Arena to your systems and expectations. Fully extendable and scalable, Front Arena evolves with your business.
