## WHAT IS MARTINI & WHAT DOES IT DO?

SunGard Martini is a securities finance software solution for both equity and fixed income. Martini provides a global, real-time, trading platform for investment banks, broker dealers, managed funds, and prime brokers in stock loan and repo. Martini is a comprehensive front and middle office solution that meets the most demanding needs of today's global trading desks with rapid response times and broad product coverage.

Martini is a multi-entity, multi-currency trading platform addressing the key requirements for the major financial institutions; maximising functionality whilst fully integrating with current downstream systems e.g. global credit and risk systems, to enable the optimum efficiency of front to back operations.

# IN WHAT BUSINESS AREAS CAN MARTINI BE USED?

Martini is a front and middle office solution for:

- INVESTMENT BANKS
- BROKER-DEALERS
- MANAGED FUNDS
- PRIME BROKERS

# FLEXIBILITY

"I know what I see in Martini is accurate and real-time, allowing me to trade with confidence."

Repo, equity, credit finance and collateral trading desks around the globe use Martini as a single, consolidated securities trading and financing platform. Martini is used across asset classes, including international and U.S. equities and fixed income, for securities finance.

Martini enables the consolidation of securities finance activities onto a single platform; providing efficient management of inventories, counterparties, market risk and financing of all asset classes with exception based processing. Martini is a proven application that can process, on a single platform, both stock loan and repo for equity and fixed income assets, on a global scale.

# SUNGARD

Martini is part of the SunGard suite of products that provide comprehensive software solutions for the securities finance industry. With an annual revenue of \$4 billion, SunGard is a global leader in software and processing solutions for financial services, higher education and the public sector. SunGard also helps information dependent enterprises of all types to ensure the continuity of their businesses. SunGard serves more than 25,000 customers in more than 50 countries, including the 50 largest financial services companies in the world.

## SUNGARD SOLUTIONS OFFER CLIENTS:

- Reduced project delivery risk
- Reduced time to market
- Minimum development costs
- Quicker return on investment

# USABILITY

## SPECIFICATION

- The Martini trading platform provides the high performance required for today's trading environment, allowing simultaneous access for users to view real-time information globally.
- Available interface tools, which allow customized integration.
- Supported on Microsoft Windows, SUN Solaris and Red Hat Linux.
- Scalable and resilient architecture to meet, and grow with, business requirements.
- The platform provides advanced technology with a robust fully distributed infrastructure and an easy to use Windows style user interface.

Together with SunGard's Global One and Loanet products, Martini provides a fully integrated front to back solution. This powerful offering of one integrated platform provides the advantages of reduced operational and settlement risk through a single solution that can link lenders and borrowers of securities around the world.

SunGard's suite of products for the securities finance industry provides a complete solution for trade entry/maintenance, consolidated position and inventory management, cash and collateral management, risk management and trade life-cycle processing, as well as delivery/settlement interfaces and reporting.

## WHY USE MARTINI?

"With Martini, we have been able to grow our volume of business and become increasingly opportunistic."
