Air China Selects SunGard's AvantGard Treasury System

January 17, 2011 – Beijing -- Air China has selected SunGard's AvantGard to help it perform treasury, debt and funding management. AvantGard Treasury will help Air China minimize manual and time-intensive processes, as well as optimize debt management. In addition, AvantGard will support Air China's upgrade of its data analysis capability in debt maturity, currency structure and interest rate structure, to support financing decisions.

The need for more sophisticated treasury management is due to rapid growth within Air China. AvantGard will help Air China increase process automation and working effectiveness.

Wesley Bernard, executive vice president of SunGard's corporate liquidity business in China, said, "Manual processes are a big constraint for China treasury professionals in implementing best practices and providing support for investment and funding decisions. Automation will be a key factor in the growth and success of corporate treasury in China. We are confident SunGard's AvantGard Treasury solution can help Air China enhance its business processes."

About Air China

Air China is the only airline company which carries the national flag and a member of Star Alliance, which is the biggest airline alliance in the world. It was the airline partner of the 2008 Beijing Olympic Games and was ranked as Top Brand among domestic airline companies (the World Brand Laboratory evaluated it at 31.72 billion RMB), which was the only airline in Global Top 500 Brand. And it leads domestic counterparts in passenger and freight air transport and related services.
