Course Overview

The purpose of this course of Aligne course is to provide an overview of how to use the Accounting, Actualization, and Settlement features in the Aligne application.

Course Format

This course is conducted via an instructor-led, hands-on, live virtual lab. Students can attend the course from any location around the world. Through the use of collaborative training technology, expert instructors, focused curriculum, and hands-on exercises, we are able to offer an winning combination of traditional job-focused content and interactive instructor-led learning.

The highly qualified instructor will lead the class through live presentations and assist students while working through exercises designed to apply the knowledge obtained throughout the class.

Benefits include:

- Same expert instructors as classroom training
- Newly designed content enhanced for on-line delivery
- Save time and money by avoiding expensive travel costs
- Classes consist of shorter sessions allowing employees to conduct needed daily business as well
- Train at home, office, or anywhere you have internet access
- Lab access for the full duration of the course to enable additional practice if desired
- Very cost effective option for needed training on SunGard products allowing for minimal disruption of daily activities.

Who Should Attend

This course is designed for those who utilize the GBO capabilities of Aligne.

Prerequisite

After taking this course, you should have a basic understanding of Aligne navigation and data flow. You should also be familiar with basic gas industry terminology and processes.
