Course Overview

The course gives you an introduction to the Align Fuels Management application. This includes navigation, static Data and basic functionality of the application. See Details below

- Contracts
- Shipments
- Quality
- Invoicing, Imports and Exports

Course Format

This course is conducted via an instructor-led, hands-on, live virtual lab. Students can attend the course from any location around the world. Through the use of collaborative training technology, expert instructors, focused curriculum, and hands-on exercises, we are able to offer a winning combination of traditional job-focused content and interactive instructor-led learning.

The highly qualified instructor will lead the class through live presentations and assist students while working through exercises designed to apply the knowledge obtained throughout the class.

Benefits include:

- Same expert instructors as classroom training
- Newly designed content enhanced for on-line delivery
- Save time and money by avoiding expensive travel costs
- Classes consist of shorter sessions allowing employees to conduct needed daily business as well
- Train at home, office, or anywhere you have internet access
- Lab access for the full duration of the course to enable additional practice if desired
- Very cost effective option for needed training on SunGard products allowing for minimal disruption of daily activities.

Who Should Attend

This course is designed for those who utilize the capabilities of Align Fuels.

Prerequisite

After taking this course, you should have a basic understanding of Align navigation and data flow. You should also be familiar with basic industry terminology and processes.
