

## SUNRISE ONLINE TRAINING ACADEMY

Customers of Stream GMI (formerly known as GMI) can optimize their use of the system through the SunRISE Online Training Academy, a suite of Internet-based courses.

Courses are available globally on a 24/7 basis and can be accessed from any computer, giving students the ability to learn at their own convenience. Participants can progress through the courses at their own pace and select the appropriate learning path and level of detail within each course to meet their individual needs.

Current courses include:

- Commission and Fee Recap Definition (MMMRC)
- Commission Suite
- Customer Document File (MMCDF)
- Customer Master File (MMCMF)
- Enhanced Commission Schedule Suite
- Fees Suite
- Futures and Equities Trade Entry
- Stream GMI System Hierarchy
- Introduction to the Stream GMI Daily Statement
- Moving Around Stream GMI
- Pricing Master (MMPRC)
- Product Pricing Master (MMPPM)
- SunGard/ Stream GMI Company Background and Services

### New

- Inquiry System Suite
- Query Builder
- Introduction to Back-Office Operations
- Assessment Library for Self-Evaluation
- Recommended Learning Paths Aligned with Job Function

## KEY BENEFITS OF THE SUNRISE ONLINE TRAINING ACADEMY:

### *Available globally on a 24/7 basis*

The Web-enabled system can be accessed at any time and from anywhere in the world from any computer. This allows users from any workshift to be able to expand their knowledge of the Stream GMI system regardless of their geographic location.

### *Can be customized for specific user requirements*

Users can select only the lessons that are relevant to their responsibilities. This provides for job-specific customization within each Stream GMI subject area.

Users can also determine the pace and duration of the sessions. They can take courses at whatever time is most convenient and can exit and return to an active or completed lesson at any time during their enrollment period.

### *Provides hands-on reinforcement opportunities*

Participants can practice what has just been learned within a simulated Stream GMI environment. Validation messages guide students through the successful completion of each simulated task.

### *Offers a variety of depths of training*

Each course features layered content that presents different levels of information. This helps engage users with basic through advanced knowledge.

### *Is user friendly*

The access portal includes user-friendly navigation tools, including the ability to view course descriptions and prerequisites for all available courses in the course catalog. Users can also view and print supplemental training materials using the Resource Library portion of the SunRISE site.
