

SUNGARD FAME ENERGY

WORLD-CLASS DATA MANAGEMENT SOLUTION

COMPETITIVE ADVANTAGE FOR ENERGY & COMMODITY TRADERS

Market volatility, data accuracy, and speed of access to information all have an impact on effective energy trading. Fame Energy is the only solution that provides energy and commodity traders with aggregated energy information from multiple vendors, which is validated and presented in a consistent framework, delivering critical speed and accuracy.

Designed for the full spectrum of commodity trading markets (oil, power, gas, emissions, metals, biofuels, and others), Fame Energy helps users across an organization quickly navigate vast libraries of energy and pricing data to easily execute both standard and proprietary analyses. With straightforward tools for organizing, updating, and analyzing commodity market data, end user efficiency is significantly enhanced.

FAME ENERGY MANAGED DATA FEEDS

Fame Energy offers more than 250 quality checked, managed, energy and commodity data feeds. Each data feed is put through a quality process designed to ensure data accuracy. With Fame Energy as your single source for energy and commodity data you can lower costs, improve data quality, and increase your time to market as you add more data sources to your organization.

FAME ENERGY SERVER 4

Fame Energy Server 4 is an open technology platform for the enterprise-wide consolidation, integration, and management of data for business applications. Designed specifically for energy and commodity data, Energy Server 4 is a time-series system, which means better performance when doing intensive analysis, with smaller capacity requirements. Its the perfect place to store your managed data feeds and your own proprietary data.

FAME ENERGY WEB 7

Fame Energy Web 7 is a user-friendly, web-based interface designed to help clients of all technical levels easily navigate, chart, and analyze energy market data. It includes access to a number of powerful modules that help users across an organization quickly navigate vast libraries of energy and pricing data, giving them the ability to easily execute both standard and proprietary analyses.

DECISION MAKING SIMPLIFIED

With the full solution suite from Fame Energy, you will have the data, an optimized system to store and access data, and tools for deep analysis of the information, all in a fully integrated, enterprise-wide system.

SUNGARD ENERGY AND COMMODITIES

SunGard's energy and commodities solutions help energy companies, corporate hedgers, hedge funds and financial services firms compete efficiently in global energy and commodities markets by streamlining and integrating the trading, risk management and operations of physical commodities and their associated financial instruments.
